INDUSTRY CERIFICATIONS

Students taking Industry Certification Assessments are enrolled in an Industry Certification course. Each teacher periodically provides the test as the students master the content. There is not a set window of time for administration of Industry Certifications in the manner of the other exams. Information is provided by the program where the student is taking the course. Students wishing to take an Industry Certification at a public school, must notify the Academy Coordinator at the school within 10 days of the start of each semester (following the School District of Palm Beach County Calendar). The Calendar is available at www.palmbeachschools.org. All costs for Industry Certification Assessments are the responsibility of the student.
