Annual Title I Meeting

Accessibility for all Families

We encourage all families to attend meetings and events. We strive to provide translated documents and interpreters, childcare, and a variety of family-focused activities. Please notify the school if other assistance is needed. We want to provide opportunities for all families to be a part of their child’s education.

Parent and Family Engagement Activities

Based on family input, we will provide the following activities to assist families in understanding the new state curriculum and assessment to help families improve their children’s academic achievement.

Curriculum Night – Parents will be informed of their child’s curriculum in grades Pre K - 5 and how it impacts the district/state assessment students will take throughout the school year. This event will provide vital information on what students will be assessed on the STAR and F.A.S.T Assessments (Reading and Math). They will all learn how to monitor their child’s progress through PM1 - PM3. Parents will also be provided with various learning strategies that can be applied to the reading, writing, math, and science content areas.

Science Night – Parents and students will gain a greater understanding of how science concepts impact real-world experiences.
