

# Math Summer 2025 Packet Student Instructions

Congratulations on your commitment to academic excellence! This virtual summer packet is thoughtfully designed to help you refresh and strengthen the foundational skills necessary for success in your upcoming math course. Please take note of the following important instructions:

- **No Computational Devices:** While working on basic computation questions (such as fraction operations), please refrain from using any computational devices, including calculators. This practice will enhance your mental math skills.
- **Formatting Your Work:** On a blank piece of paper, use blue ink to write the title: "Summer Packet." In the top right-hand corner, neatly print your name. For each question, use a pencil to:
  - Number the problem.
  - Show all your work clearly.
  - Circle your final answer.
  - If the assignment is designated as "timed," you are not required to show your work, as you will be expected to rely on mental math.
- **Completion Deadline:** This virtual summer packet must be completed before the start of the school year.
- **Extra Credit Opportunity:** Completing this assignment will earn you extra credit towards your test average! The points awarded will be based on your effort, neatness, and accuracy. You could potentially improve your test score by a whole letter grade!
- **Assessment of Skills:** An assessment of these prerequisite skills will be conducted once school begins.
- **Additional Resources:** If you encounter difficulties with the skills in the summer packet, consider utilizing resources available on Delta Math, Khan Academy, YouTube, and other educational platforms to ensure you are well-prepared for your upcoming math course.

Contact Information: Mr. Muciño will oversee the administration of the summer work. If you have any questions or need assistance, please feel free to reach out to him at

## **CREATING A NEW ACCOUNT or Current Accounts**

1. Go to [DeltaMath.com](https://DeltaMath.com) Go
2. Go to the STUDENTS tab
3. Register the teacher code: **787414**
4. Select the section based on which course you are going to be taking in the next school year. **Example:** I am currently an Algebra 1 student and will be taking Geometry next year, I will select "Incoming Geometry Students 25-26"
5. Sign up by using. GOOGLE and your school google credentials.

**Note: Make sure to keep these in a safe place as you will need them every time you go to login to work on your virtual summer packet.**

## **UPDATING THE SUMMER PACKET IF YOU MADE A MISTAKE & SELECTED THE WRONG ONE**

1. Go to [DeltaMath.com](https://DeltaMath.com)
2. Login with your email and password.
3. Click on "Tools" on the top right-hand corner
4. Click on "Manage Login and Teachers"
5. Click "edit"
6. Click the drop-down menu and uncheck the incorrect summer packet and check the correct one
7. Click "Save" then press "Okay"
8. Click the DeltaMath Icon on the top left-hand corner to return to main screen

## **HOW TO COMPLETE THE SUMMER PACKET**

1. Go to [DeltaMath.com](https://DeltaMath.com)
2. Login with your email and password.
3. On the main screen locate your (SUMMER) packet assignment
4. Complete each of the skills set, make sure you do the total required for each skill set; but, you may complete them in any order you wish. You can do a little each day and it will save your work as you go.
5. Due on the first day back!
