The School Year

Seven classes are offered on a modified block style schedule, meeting on 7 period days for fifty minutes, and then on an even-odd alternating day schedule. On odd days, periods, 1, 3, and 7 meet for 107 minutes with period 5 meeting each day for 50 minutes. On even days, periods 2, 4, and 6 meet for 107 minutes with period 5 meeting for 50 minutes. The school operates 36 weeks per year and the school year is divided into four nine week grading periods. Semester grades, given twice a year, earn one-half credit for every course passed with a D or above. The semester grade is determined by averaging the two nine-week grades (80%) and the semester exam (20%). If two of these grades are F's, however, the final semester grade is automatically an F.
