

## **AP Human Geography Summer Assignment**

**Step One:** Please join the Google Classroom for information on this course and for your summer assignment documents ~ Thank-you [vm436rs]

<https://classroom.google.com/c/NjgyMTk4ODI0MDM2?cjc=vm436rs>

AP Human Geography is not a traditional geography class. Instead of learning the locations of physical and political features, this course focuses on the interactions between humans and their environment and between human populations.

As a prerequisite to the course, AP Human Geography students are expected to enter class with a basic understanding of the physical and political geography of the world - the locations of the continents and oceans, the arrangement of regions, and the locations of certain countries found within each of these regions.

To ensure students are adequately prepared for geographic requirements, students should complete the tasks located in our Summer Assignment Google Classroom before the first week of school.

**Assessment:** Students are required to score at least a 90% on the assessment to meet the minimum standard. Each student MUST attain at least the minimum passing score of 90%. Students who score below a 90% will be required to retake the test until the minimum standard is achieved. **The test will be given Monday, August 19, 2024. Student's entering the course later will be given an extension. :) Happy Summer and I look forward to meeting you.**
