

Tuxedos and Gowns

Read Aloud Activity

When people get married in the United States, the man wears a tuxedo and the woman wears a wedding gown.

The tuxedo is usually black and the wedding gown is white. Most men rent their tuxedo, but most women buy their wedding gown.

It's cheaper to rent a tuxedo than to buy one. Rented tuxedos come with a bow tie. Men just need to buy their own shirt and cuff links. They can either rent or buy their shoes.

Women buy their wedding gowns and veils. After they find a gown they like, they have a seamstress alter it. They buy shoes to match their gown. It's important to shop early for the perfect wedding gown.
