EDWARD C. TIERNEY Deputy Superintendent/Chief of Schools

## EXECUTIVE SUMMARY

April 7, 2022
TO: School Board Members

THROUGH: Michael J. Burke, Superintendent

FROM: Edward C. Tierney, Deputy Superintendent/Chief of Schools ECY Glenda Sheffield, Ed.D., Chief Academic Officer G.S , Adam Miller, Assistant Superintendent, Performance Accountability

## SUBJECT: FY21 DISTRICT HIGH SCHOOL GRADUATES COLLEGE MATRICULATION SUMMARY

The District has received the FY21 high school graduates' college matriculation data from the National Student Clearinghouse (NSC). ${ }^{1}$ Department of Research \& Evaluation (DRE) has performed a preliminary analysis of college enrollment for students who graduated from the District between FY17 and FY21 ${ }^{2}$, persistence rates ${ }^{3}$ for students who graduated from the District between FY16 and FY20, and degree completion for students who graduated between FY14 and FY17. This report summarizes our progress toward the District Strategic Plan's Long Term Outcome of "Preparing Students for Postsecondary Success."

The document provides an analysis of college enrollment, including the District graduates' college enrollment by year, institution type, and student demographics. To gain an understanding of middle and high school student achievement impact on the college enrollment, the relationships with Grade 8 Florida Standards Assessment (FSA) achievement and high school SAT scores are also examined. The report also details enrollment at the most popular postsecondary institutions for the District high school graduates, college persistence, and degree completion rates.

## SUMMARY OF FINDINGS

Findings are summarized according to the following sections:

- General Enrollment Trends FY17 through FY21
- Enrollment by Student Demographics
- College Choice
- Student Achievement and College Enrollment
- Persistence: FY16 to FY20 Cohorts
- Degree Completion
- Summaries by High School Attended

[^0]
## General Enrollment Trends FY17 Through FY21

- Fifty-seven percent of District graduates enrolled in a postsecondary institution in the fall after graduation, which is similar to FY20 (56\%) (Table 1). ${ }^{4}$ Both FY20 and FY21 college enrollment decreased from FY17 to FY19 (64\%-68\%). This decrease shows the impact of COVID-19 on FY20 and FY21 high school graduates and their postsecondary institution enrollment.
- From FY18 to FY20, the percent of District graduates attending a postsecondary institution (56\% - 64\%) was lower than the enrollment rates of national high school graduates ( $63 \%-69 \%$; Table 1). ${ }^{5}$ For FY17, the percent of District graduates' college enrollment rate (68\%) is similar to the national high school graduates (67\%).

Table 1. Number and percent of District graduates enrolled in postsecondary institutions in the fall after graduation

| Year | Number of District <br> Graduates | Number of Graduates <br> Enrolled in College | Percent of Graduates <br> Enrolled in College | National High <br> School $^{6}$ |
| :---: | :---: | :---: | :---: | :---: |
| FY21 | 13,126 | 7,419 | $57 \%$ | - |
| FY20 | 13,469 | 7,500 | $56 \%$ | $63 \%$ |
| FY19 | 13,302 | 8,470 | $64 \%$ | $66 \%$ |
| FY18 | 12,811 | 8,251 | $64 \%$ | $69 \%$ |
| FY17 | 11,173 | 7,549 | $68 \%$ | $67 \%$ |

Note: The college enrollment may be impacted by NSC Institution coverage rate for the year or students' enrollment record blocked rate.

- In FY19 and earlier, nearly two-thirds of students enrolled in a postsecondary institution during the fall following high school graduation. However, in FY20 and FY21 only $56 \%-57 \%$ of graduates enrolled in a postsecondary institution. This decrease among District graduates reflects the nationwide trend. ${ }^{7}$ For FY20, similar to the prior years' graduates (FY17 to FY19), the enrollment rates increased slightly ( 5 to 7 percentage points) by the end of the first year following high school graduation with small additional increases in the second and third years (Table 2).

[^1]Table 2. Percent of District graduates enrolled in postsecondary institutions for the first time in the fall and in the following four years ${ }^{8,9}$

| Year | Percent <br> Enrolled in Fall | Percent <br> Enrolled in the <br> First Year | Percent <br> Enrolled in the <br> Second Year | Percent <br> Enrolled in the <br> Third Year | Percent <br> Enrolled in the <br> Fourth Year | Total <br> Percent |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| FY21 | $57 \%$ | $57 \%$ | NA | NA | NA | $57 \%$ |
| FY20 | $56 \%$ | $62 \%$ | $3 \%$ | NA | NA | $65 \%$ |
| FY19 | $64 \%$ | $69 \%$ | $3 \%$ | $1 \%$ | NA | $73 \%$ |
| FY18 | $64 \%$ | $70 \%$ | $4 \%$ | $2 \%$ | $0 \%$ | $76 \%$ |
| FY17 | $68 \%$ | $72 \%$ | $4 \%$ | $2 \%$ | $1 \%$ | $79 \%$ |

Note: NA indicates no data available. Total percent may appear to be different due to rounding.

- For each of the cohorts examined, most college attendees enrolled in a public university (Table 3), in-state (Table 4), a four-year college or university (Table 5). Similar to the FY20 graduates, FY21 graduates' enrollment decreased at public colleges, in-state institutions and four-year colleges.

Table 3. Number and percent of District graduates enrolled in public and private institutions in the fall after graduation

| Year | Number of <br> District <br> Graduates | Number Enrolled <br> in a Public <br> College | Percent Enrolled <br> in a Public College | Number Enrolled <br> in a Private <br> College | Percent Enrolled <br> in a Private <br> College |
| :---: | :---: | :---: | :---: | :---: | :---: |
| FY21 | 13,126 | 6,580 | $50 \%$ | 849 | $6 \%$ |
| FY20 | 13,469 | 6,604 | $49 \%$ | 922 | $7 \%$ |
| FY19 | 13,302 | 7,571 | $57 \%$ | 910 | $7 \%$ |
| FY18 | 12,811 | 7,355 | $57 \%$ | 901 | $7 \%$ |
| FY17 | 11,173 | 6,758 | $60 \%$ | 801 | $7 \%$ |

Table 4. Number and percent of District graduates enrolled in an in-state and out-of-state postsecondary institution in the fall after graduation

| Year | Number of <br> District <br> Graduates | Number Enrolled <br> in an In-State <br> College | Percent Enrolled <br> in an In-State <br> College | Number Enrolled <br> in an Out-of-State <br> College | Percent Enrolled in <br> an Out-of-State <br> College |
| :---: | :---: | :---: | :---: | :---: | :---: |
| FY21 | 13,126 | 6,608 | $50 \%$ | 814 | $6 \%$ |
| FY20 | 13,469 | 6,719 | $50 \%$ | 806 | $6 \%$ |
| FY19 | 13,302 | 7,646 | $57 \%$ | 836 | $6 \%$ |
| FY18 | 12,811 | 7,412 | $58 \%$ | 842 | $7 \%$ |
| FY17 | 11,173 | 6,726 | $60 \%$ | 827 | $7 \%$ |

[^2]Table 5. Number and percent of District graduates enrolled in two and four-year postsecondary institutions in the fall after graduation ${ }^{10}$

| Year | Number of <br> District <br> Graduates | Number Enrolled in <br> a Two-Year College | Percent Enrolled <br> in a Two-Year <br> College | Number Enrolled <br> in a Four-Year <br> College | Percent Enrolled in <br> a Four-Year College |
| :---: | :---: | :---: | :---: | :---: | :---: |
| FY21 | 13,126 | 248 | $2 \%$ | 7,177 | $55 \%$ |
| FY20 | 13,469 | 244 | $2 \%$ | 7,263 | $54 \%$ |
| FY19 | 13,302 | 287 | $2 \%$ | 8,191 | $62 \%$ |
| FY18 | 12,811 | 285 | $2 \%$ | 7,971 | $62 \%$ |
| FY17 | 11,173 | 220 | $2 \%$ | 7,332 | $66 \%$ |

## Enrollment by Student Demographics

- More Female graduates ( $63 \%-72 \%$ ) were enrolled in a postsecondary institution than Male graduates ( $49 \%$ - 63\%; Table 6); Male college enrollment ( $-8 \%$ for FY21, $-9 \%$ for FY20) decreased more than Female (-6\% for FY21 and FY20) from FY21 - FY20 to FY19.
- Fewer Black ( $46 \%-63 \%$ ) and Hispanic ( $48 \%-61 \%$ ) graduates were enrolled in a postsecondary institution than White graduates ( $69 \%-74 \%$ ) (Table 6). The decrease in enrollment from FY19 to FY21 for Black $(-10 \%)$ was similar to Hispanic students ( $-10 \%$ ), but larger than White students ( $-3 \%$ ). Correspondingly, the gap between White and Black students in FY21 (20\%) was larger than in FY19 (13\%), but was smaller than FY20 (21\%). The gap between White and Hispanic students in FY21 (21\%) was the same as in FY20, but larger than in FY19 (14\%).

Table 6. Number and percent of District graduates enrolled in postsecondary institutions in the fall after graduation by demographic groups

| Group | FY21 |  | FY20 |  | FY19 |  | FY18 |  | FY17 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## College Choice

For all years, Palm Beach State College (PBSC) has been the most common college choice for District graduates (Table 7). PBSC remained the top choice for the FY21 graduates although there was a decrease of 8 percentage points from FY19.

[^3]Table 7. Number and percent of District graduates enrolled in the five most frequently attended colleges/ universities in the fall after graduation

| Institution | FY21 |  | FY20 |  | FY19 |  | FY18 |  | FY17 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Count | Pct | Count | Pct | Count | Pct | Count | Pct | Count | Pct |
| Palm Beach State College | 2,712 | 21\% | 2,882 | 21\% | 3,833 | 29\% | 3,797 | 30\% | 3,448 | 31\% |
| Florida Atlantic University | 878 | 7\% | 910 | 7\% | 751 | 6\% | 668 | 5\% | 562 | 5\% |
| University of Florida | 542 | 4\% | 538 | 4\% | 576 | 4\% | 569 | 4\% | 509 | 5\% |
| Florida State University | 509 | 4\% | 342 | 3\% | 480 | 4\% | 448 | 3\% | 486 | 4\% |
| University of Central Florida | 498 | 4\% | 642 | 5\% | 499 | 4\% | 484 | 4\% | 467 | 5\% |

## Student Achievement and College Enrollment

- For FY21 the enrollment rates increased for students with lower SAT scores compared to FY20, but still decreased from FY19 and prior years. Among the FY21 graduates with SAT Reading or Math scores above 600 , postsecondary enrollment ( $84 \%-87 \%$ ) was stable across years (Table 8 and Table 9). However, there were still declines among lower achieving students. For students scoring in the 500-599 range, enrollment rates decreased about 5 percentage points (FY19's 73\% to FY21's 69\% for Reading; FY19's 76\% to FY21's $73 \%$ for Math), while enrollment rates for graduates with Reading scores below 500 declined more than 10 percentage points (from FY19's 34\%-52\% to FY21's 22\% - 44\%).

Table 8. Number and percent of District graduates enrolled in postsecondary institutions in the fall after graduation by SAT Reading score

| Score Range | FY21* |  | FY20* |  | FY19* |  | FY18* |  | FY17* |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Count | Pct | Count | Pct | Count | Pct | Count | Pct | Count | Pct |
| 1-399 | 1,032 | 22\% | 854 | 18\% | 619 | 34\% | 617 | 38\% | 460 | 50\% |
| 400-499 | 4,638 | 44\% | 4,726 | 40\% | 4,651 | 52\% | 4,574 | 54\% | 3,903 | 56\% |
| 500-599 | 3,681 | 69\% | 3,955 | 68\% | 4,182 | 73\% | 3,938 | 72\% | 3,500 | 74\% |
| 600-800 | 2,799 | 85\% | 3,024 | 84\% | 2,953 | 85\% | 2,882 | 85\% | 2,434 | 84\% |

* Note: The SAT score is the New SAT score; the summary based on the students who took SAT in high school.

Table 9. Number and percent of District graduates enrolled in postsecondary institutions in the fall after graduation by SAT Math score

| Score Range | FY21* |  | FY20* |  | FY19* |  | FY18* |  | FY17* |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Count | Pct | Count | Pct | Count | Pct | Count | Pct | Count | Pct |
| 1-399 | 2,522 | 32\% | 2,501 | 29\% | 2,108 | 41\% | 1,870 | 44\% | 1,394 | 49\% |
| 400-499 | 4,139 | 50\% | 4,147 | 48\% | 4,382 | 59\% | 4,126 | 57\% | 3,535 | 59\% |
| 500-599 | 3,484 | 73\% | 3,737 | 72\% | 3,692 | 76\% | 3,897 | 76\% | 3,548 | 77\% |
| 600-800 | 2,004 | 87\% | 2,174 | 86\% | 2,223 | 87\% | 2,116 | 86\% | 1,821 | 84\% |

[^4]- For those District graduates who had a Florida Standards Assessment English Language Arts (ELA) ${ }^{11}$ Level 4 or 5 in Grade 8, $73 \%$ - 84\% entered college. Graduates who had scored at ELA Level 1 in Grade 8, 29\% $49 \%$ enrolled in a postsecondary institution. Moreover, graduates who had ELA Level 2 in Grade 8, 47\% $59 \%$ enrolled in a postsecondary institution (Table 10). For FY21 graduates who had ELA Reading Level 1 and 2 in Grade 8, the college enrollment increased about 2\% from FY20, but still declined more than $10 \%$ from FY19.
- District graduates who had a Florida Standards Assessment Math Level 4 or 5 in Grade 8, 67\% - 83\% entered college. Graduates who had Math Level 1 in Grade 8, 30\%-52\% enrolled in a postsecondary institution. Moreover, graduates who had Math Level 2 in Grade 8, 43\%-58\% enrolled in a postsecondary institution (Table 11).
- In alignment with the SAT data, FY21 graduates with lower Grade 8 scores showed a little increase in college enrollment from FY20, but still greater decrease relative to the FY19 and earlier graduates. The proportion of Level 1 and 2 students entering a postsecondary institution has increased about $1-2 \%$ from FY20, but declined much more than other Levels comparing to FY19 and earlier graduates.

Table 10. Number and percent of District graduates enrolled in postsecondary institutions in the fall after graduation by Grade 8 state assessment ELA Level

| Score Range | FY21* |  | FY20* |  | FY19* |  | FY18 |  | FY17 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Count | Pct | Count | Pct | Count | Pct | Count | Pct | Count | Pct |
| Level 1 | 1,790 | 31\% | 1,697 | 29\% | 1,681 | 44\% | 1,264 | 44\% | 591 | 49\% |
| Level 2 | 2,230 | 49\% | 2,105 | 47\% | 2,246 | 59\% | 2,474 | 57\% | 2,241 | 58\% |
| Level 3 | 2,578 | 62\% | 2,657 | 62\% | 2,787 | 69\% | 2,755 | 68\% | 2,702 | 69\% |
| Level 4 | 2,108 | 73\% | 2,170 | 76\% | 2,050 | 79\% | 2,124 | 78\% | 2,115 | 79\% |

* Note: For FY19, FY20, FY21 the score are the FSA scores, while the other scores are the FCAT 2.0 Score.

Table 11. Number and percent of District graduates enrolled in postsecondary institutions in the fall after graduation by Grade 8 state assessment Math Level

| Score Range | FY21* |  | FY20* |  | FY19* |  | FY18 |  | FY17 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Count | Pct | Count | Pct | Count | Pct | Count | Pct | Count | Pct |
| Level 1 | 1,574 | 32\% | 1,464 | 30\% | 1,401 | 48\% | 710 | 45\% | 871 | 52\% |
| Level 2 | 1,492 | 44\% | 1,533 | 43\% | 1,665 | 56\% | 1,940 | 58\% | 1,598 | 58\% |
| Level 3 | 2,614 | 58\% | 2,684 | 59\% | 2,928 | 65\% | 2,757 | 67\% | 3,076 | 68\% |
| Level 4 | 2,093 | 67\% | 2,033 | 70\% | 2,151 | 75\% | 1,181 | 76\% | 1,991 | 77\% |
| Level 5 | 2,622 | 80\% | 2,622 | 79\% | 2,066 | 82\% | 624 | 81\% | 1,170 | 83\% |

* Note: For FY19, FY20, FY21 the score are the FSA Math scores, while the other scores are the FCAT 2.0 Score. Since FY19, Grade 8 FSA Math was not required; the students might take Algebra EOC or Geometry EOC. The summary is based the highest levels the students received.

[^5]
## Persistence: FY16 to FY20 Cohorts

- From FY16 to FY18, the persistence rate ${ }^{12}$ for District graduates enrolled in college ( $82 \%-83 \%$ ) was higher than the National persistence rate ( $74 \%-76 \%$ ) (Table 12). The FY19 District persistence rate has decreased to $77 \%$, which is higher than the overall national persistence rate ( $74 \%$ ) but lower than National 20 (age) and under persistence rate (79\%). For FY20, District persistence rate increase to $81 \%$ which is close to FY18.

Table 12. First-Year persistence rate for the District high school graduates enrolled in postsecondary institutions

| Cohort Year | District Enrolled <br> Count | District <br> Persistence Rate | National <br> Persistence Rate | National 20 (age) and under* <br> Persistence Rate |
| :---: | :---: | :---: | :---: | :---: |
| FY20 | 7,734 | $81 \%$ | NA | NA |
| FY19 | 8,617 | $77 \%$ | $74 \%$ | $79 \%$ |
| FY18 | 8,455 | $82 \%$ | $76 \%$ | $80 \%$ |
| FY17 | 8,078 | $84 \%$ | $74 \%$ | $77 \%$ |
| FY16 | 7,361 | $83 \%$ | $74 \%$ | $77 \%$ |

* National Persistence Rate is from NSC https://nscresearchcenter.org/persistence-retention/

## Degree Completion

- Over 60\% of students in the FY14 to FY15 cohorts have completed a certificate, BA or AA college degree, and $60 \%$ of the FY16 cohort have done so as well. The total for those FY14 and FY15 graduates who completed a certificate, BA or AA degree in six years was equal or slightly higher ( $64 \%$ for $\mathrm{FY} 14,62 \%$ for FY15, (Table 13) than the National completion rate ( $61 \%$ for FY14, 62\% for FY15).
- The Bachelor's degree was the most common highest degree completed ( $44 \%-45 \%$ for FY14 to FY15 cohorts). While $41 \%$ of FY16 cohort students have completed a Bachelor's degree, this percentage is expected to increase with time.
- For FY16 cohort, by then end of year 2021, about $58 \%$ have completed AA or BA degree.

Table 13. Count FY14 to FY17 for the District high school graduates enrolled in postsecondary institutions and degree completion rate

| Cohort <br> Year | Count | Percent for <br> BA or AA <br> Degree or <br> Other | Percent for <br> Highest Degree <br> with Other | Percent for <br> Highest Degree <br> with AA | Percent for <br> Highest Degree <br> with BA | Percent for <br> Highest Degree <br> with MA and <br> Above | National Degree <br> Completion Rate <br> for BA or AA or <br> Certificate |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| FY17 | 8174 | $51 \%$ | $2 \%$ | $19 \%$ | $30 \%$ | $1 \%$ | NA |
| FY16 | 7,481 | $60 \%$ | $2 \%$ | $17 \%$ | $41 \%$ | $2 \%$ | NA |
| FY15 | 7,504 | $62 \%$ | $2 \%$ | $16 \%$ | $44 \%$ | $4 \%$ | $62 \%$ |
| FY14 | 7,395 | $64 \%$ | $2 \%$ | $17 \%$ | $45 \%$ | $4 \%$ | $61 \%$ |

Note: NA denotes "not available". With any of the Degrees,

- Other - Received Certificate or other Diploma as the Highest Degree
- AA - Received Associate's Degree as the Highest Degree
- BA - Received Bachelor's Degree as the Highest Degree
- MA and Above - Received Master's Degree and above as the Highest Degree
- FY14 and FY15 are six-year degree completion; other are the completion by the end of 2021

[^6]In summary, similar to FY20, the District FY21 graduates enrolled in a postsecondary institution in the fall after graduation is considerably lower than FY19 and prior years. The decrease in enrollment differed across student groups and academic achievement. The enrollment gap between White and Black students in FY21 was larger than in FY19, but smaller than FY20. The enrollment gap between White and Hispanic students in FY21 was larger than in FY19 and similar to FY20. Students who scored lower on the SAT or Grade 8 FSA/FCAT showed larger declines in postsecondary enrollment compared to higher achieving students.

FY19 persistence rate is lower than FY18, but increased in FY20. From FY15 to FY19, the persistence rate for District graduates enrolled in college was higher than the National persistence rate.

FY14 graduates who completed a degree in six years was slightly higher than the National completion rate. The impact of COVID-19 on future persistence rates is yet to be determined.

## NEXT STEPS

Overall, for FY21 District graduates, the postsecondary enrollment dropped about 7 percentage points from FY19 ( $64 \%$ for FY19, $57 \%$ for FY21) concurrent with the impact of the COVID-19 pandemic. This impact was also reflected for each high school. In addition, as noted above, there are differences in enrollment and persistence rates related to the high school that students attended.

The District High School Graduates' College Matriculation Dashboard provides summaries of college enrollment, persistence rates and degree completion by District high schools. ${ }^{13}$ Comparison to the District schools and National Benchmarks are also included. With this in mind and the information provided in the summary and dashboard, staff are urged to reflect on the following questions:

1. How does college enrollment compare to the prior year? The last five years? What trends do yousee? How do they compare to the National Benchmarks?
2. How does college persistent rate compare to the prior year? The last five years? What trends do you see? How do they compare to the National Benchmarks?
3. How does college completion rate compare to the District overall and National Benchmarks?
4. Do high school graduates meeting college readiness benchmarks enroll in college?
5. What are we doing to monitor students beginning in Grade 9 and tracking them to college enrollment?
6. How can we better support students who are impacted by COVID-19 and help them to prepare for enrollment, persistence, and success in a postsecondary environment?
